

## Building Utility: Tech. Room

### P-334

P-Engineering designs full Technical Rooms based on pre-fabricated Units. We can deliver Design Package or handle Installations as an EPCm Contract on behalf of our clients.

- Steam and Condensate
- District Heating or Boiler Installation
- Central Heating
- District Cooling or Chillers
- Central Heating
- Expansion and Make-up Systems
- Water Supply and Water Treatment
- Hot Tap Water Production and Distribution
- Mixing Loops for Floor Heating
- Compressed Air and Nitrogen

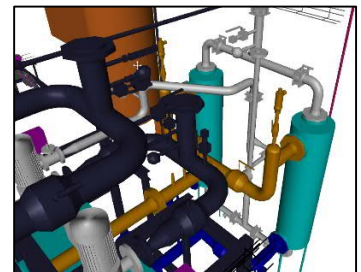

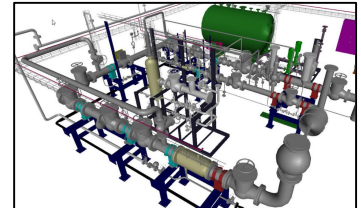

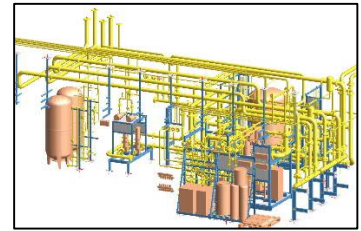

P-Engineering design/sizes all

- Piping EN 13480
- Equipment – Vessel, Heat Exchangers, Pumps, Control Valves.
- Electrical MCC, Cabling etc.
- Steel Structures and Pipe Support
- BMS, Instrumentation etc.

For all areas manufacturing drawings will be created – PID, Piping Isometrics, Support, MCC Single Line Diagrams Details etc.
